ECONOMIC OVERVIEW

The signs of concern about the United States and Mexican economies are confirmed by the weakness of demand variables.

A new economic downturn in the United States could result in a slow recovery of the growth process in Mexico.

The decrease in confidence by consumers is associated with the deterioration of short-term expectations on the economic recovery in the United States. There might be other elements related to the fear of more terrorist attacks and increase of war conflicts in certain areas of the world.

In Mexico, the foregoing is affecting exportations and there has been greater volatility in the exchange rate and interest rates.

The positive news for Mexico is the strengthening of internal demand, because the actual available income has been kept notwithstanding last year's economic deterioration.

OPERATION RESULTS

The aggregate volume for the first six-month period, including bonuses and samples, was 173 million unit cases, 5.9% more than last year. Significant market activities include:

Promotional campaigns by virtue of the Soccer World Cup.

Introduction of non-returnable plastic bottle one-liter Coca-Cola.

V Coca-Cola inter-junior high-school cup.

Extension of coverage of Ciel in Metropolitan areas of Guadalajara and San Luis Potosí.

Increase in the number of customers served with the Channel Marketing System.

Retailer Training Programs.

8,920 new refrigeration equipment units for the market.

New Products: PORWERade, QUATRO and Mickey Aventuras.

Strengthening of Information Systems for a better management of business.

Teamwork of more than 14,000 collaborators, all of them focused on customer service.

CAPITAL RESOURCES

Fixed asset investments made by our Group accrued as of the closing of the first semester amounted to 168 million pesos. They were made with funds from operation flow and include modernization and extension of bottling lines for new products, vehicles of different characteristics intended to the renewal of the distribution fleet, new routes, service vehicles, hoists, lands for construction of new distribution centers, computer and network servers infrastructure.

LIQUIDITY

The operation flow increased during the six-month period by 2.1% compared to the same period last year. We have a provision of more than 1.81 billion pesos to leverage any strategic or profitable opportunity for our shareholders.

The liquidity and leverage ratios continue to be excellent, as reflected in the financial statements which are a part of this information.

ACTIVITY OF THE COMPANY

Grupo Continental, S. A. (the "Company") is a holding of companies who are principally engaged in the manufacture and sale of soft drinks and purified water, through 17 franchises granted by The Coca-Cola Company, operating in seven States of Mexico.

1.- PRINCIPAL ACCOUNTANT AND FINANCIAL POLICIES

BASIS OF CONSOLIDATION

The consolidated financial statements include the accounts of the Company and all of its subsidiaries, each of which is more than 50% owned by the Company. All material intercompany balances and transactions have been eliminated in consolidation.

The subsidiaries of Grupo Continental, S.A. included in the consolidated financial statement, are listed in the annex 3 of the financial information.

The significant accounting policies followed by the Company, all of which are based on accounting principles generally accepted in Mexico ("Mexican GAAP"), are summarized below:

a) Recognition of the effects of inflation

The consolidated and individual financial statements of the Company have been prepared in accordance with Bulletin B-10, which recognizes the effects of inflation and, accordingly, the consolidated and individual financial statements have been restated to constant December 31, 2001 Mexican pesos ("\$\$"), to correspond with the date of the latest financial statements issued by the Company, using the Mexican National Consumer Price Index ("NCPI"), published by the Banco de Mexico. The accompanying consolidated and individual financial statements are therefore comparable with each other since each is stated in Mexican pesos of the same purchasing power.

b) Cash and cash equivalents

Cash and cash equivalents consist of cash and unsecured short-term investments with banks, which are payable on demand and bear interest at variable rates, and have original maturities of three months or less. The carrying amounts are stated at cost, which approximates market value.

c) Inventories and cost of sales

Inventories are stated at the lower of replacement cost or realizable value. Cost of sales is stated utilizing the replacement cost at time of sale.

FINANCIAL STATEMENT NOTES (1)

ANNEX 2

PAGE 2

d) Investments

Investments in subsidiaries and associated companies are valued by applying the equity method for purposes of presentation in the individual financial statements. Investments in non-marketable securities are expressed at the restated cost, which involves restating historical amounts by applying factors derived from the NCPI.

e) Property, plant and equipment

Property, plant and equipment are recorded at acquisition cost. Until 1996, fixed assets were restated based on appraisals performed by independent appraisers, in order to reflect the net replacement value. Effective 1997, the net replacement value at December 31, 1996, and the subsequent acquisitions are restated by applying factors derived from NCPI. Depreciation is calculated using the straight-line method, based on the useful lives of the assets.

f) Cost of cases and bottles

All cases and bottles held at the company's plants and warehouses are recorded as inventory at the lower of deposit value or replacement cost. When the cases and bottles are broken are charged to income as selling or general expenses (bottles broken during production are charged to cost of sales). The results that are obtained expensing bottles and cases in this manner are not materially different from the results that would be obtained if the Company amortized these bottles and cases over their estimated useful lives of approximately four years. (1.5 years for plastic bottles and 4 years for glass bottles and polycarbonate 20-liter bottles).

The cost of cases and bottles provided to retailers without deposit, in connection with promotional campaigns for new container sizes (net of the portion of such costs paid by The Coca-Cola Company pursuant to cooperative marketing arrangements), is included in other non-current assets on the consolidated balance sheet and it is amortized over their estimated useful life mentioned in the preceding paragraph.

g) Goodwill

The difference of the amount paid and the book value of shares of subsidiaries and associated companies acquired, represents the goodwill. It is restated by applying to historical amounts, factors derived from the NCPI. Goodwill is amortized on a straight-line method in a period not exceeding 20 years.

h) Income tax and employees' statutory profit sharing

On January 1st, 2002 was published on the Diario Oficial de la Federacion the new Income Tax that establish changes in the tax rates.

Effective January 1st, 2002 the Company and its subsidiaries adopted the guidelines established by the circular No. 56 issued by the Mexican Institute

of Public Accountants that establish changes on the tax rates. The accumulated effect at the beginning of 2002 was approximately of 44 millions of pesos, reducing the liability of deferred income taxes.

i) Pension plans and employee severance benefits

Seniority premiums to which employees are entitled upon termination of employment after 15 years of services, as mandated by the Mexican Labor Law, are recognized as expenses as such premiums accrue, based on actuarial computation.

The Company provides defined benefit pension plans that cover non-union employees of almost all the subsidiaries. The Company provides the pension plans to eligible employees with at least 10 years of service and 60 years of age and remains in effect at least for the following ten years, and until death. The amount of payment under the pension benefits is based on the average net salary for the last 12 months of service, and is reduced by the amount of payment of the benefits received by the employees from the Mexican Institute of Social Security. The Company makes annual contributions to the pension trust, based on actuarial estimations.

Two subsidiaries provide benefit pension plans covering union employees, with at least 25 years of services and 60 years of age and remains in effect until death. The amount of payment under the pension benefits equals to 50% of the salary in effect at the date of retirement.

The cost of seniority premiums and the pension plans are calculated on an actuarial basis, as established on Bulletin D-3 "Labor Obligations", issued by the Mexican Institute of Public Accountants. This bulletin requires charges to income in each fiscal year, as well as recognition of corresponding liabilities and assets (in the event of over funding). These costs are computed based on the services rendered and projected salaries.

Other compensations based on length of service and to which employees may be entitled in the event of dismissal or death, in accordance with the Mexican Labor Law, are charged to income in the year in which they become payable.

j) Transactions in U.S. dollars (See Note 6)

Transactions in U.S. dollars are recorded at the rate of exchange prevailing on the date the transaction is entered into. Assets and liabilities denominated in such currency are stated at the Mexican peso equivalent resulting from applying the rate of exchange prevailing at year-end. Exchange gains or losses are included in results of operations.

k) Surplus from restatement of shareholders' equity

Items comprising shareholders' equity are restated by applying factors derived from NCPI to historical amounts. The restated figures represent the shareholders' investment in Mexican pesos with purchasing power at the balance sheet date.

FINANCIAL STATEMENT NOTES (1)

ANNEX 2

PAGE 4
CONSOLIDATED
Final Printing

The surplus from restatement of shareholders' equity primarily represents the gain or loss from holding non-monetary assets, and is determined by comparing the replacement values to those values obtained from applying factors derived from the NCPI in the restatement of non-monetary assets.

l) Comprehensive income

Effective 2001, the Mexican Institute of Public Accountants, issued the Bulletin B-4, "Comprehensive income", which established that in the Statement of Shareholders' Equity be shown the "Comprehensive income", which represents the whole actuation of the Company during the years that are presented. This item is represented by the net income of the year, the gain or loss from holding non-monetary assets corresponding to the year and the effect of deferred income taxes, that in conformity with accounting principles generally accepted in Mexico should be recorded in the shareholders' equity.

m) Gain or loss on net monetary position

Gain on net monetary position represents the effects of inflation, as measured by changes in the NCPI, on the company's monetary assets and liabilities at the beginning of each month.

n) Advertising and promotional expenses and other income from The Coca-Cola Company

During the periods covered by these financial statements, pursuant to annual cooperative marketing budgets, The Coca-Cola Company has made co-payments equal to approximately half of the cost of certain advertising and promotional programs, including the cost of bottles and cases provided to retailers without deposit in connection with reverse promotions, and the Company, together with other Mexican Coca-Cola bottlers, has made co-payments in connection with national advertising campaigns based on the population of their respective territories, equal to an aggregate of approximately half of the cost of such campaigns. The company's advertising and promotional expenses only reflect the portion of such costs. Funds expended by the Company in respect of The Coca-Cola Company's portion of such expenses, are reflected as accounts receivable from The Coca-Cola Company and accordingly, have no income statement effect. The Coca-Cola Company generally pays such receivables within 60 days.

o) Income per share

Income per share is calculated by dividing majority net income, by the weighted average shares outstanding during each year presented. The weighted average shares outstanding during June 2002 were 749,822,617 and 748,559,812 on June 2001.

5.- CONSOLIDATED STOCK HOLDERS' EQUITY

SHAREHOLDERS' EQUITY

The capital stock is represented by 750,000,000 common shares, with a par value of two cents each, fully subscribed and paid.

At June 30, 2002, the Company owns 43,200 repurchase fund of shares. The limit relocation will be between December 2002 and January 2003.

Dividends are not subject to withholding income taxes as long as they are paid from "net taxable income" or "CUFIN". Also, the stock reimbursements that exceed proportionally the account of capital contributed (CUCA), are considered dividends and subject to the mentioned procedure, and in such case to the payment of taxes.

The unconsolidated annual net income of the Company and of each subsidiary is subject to the legal requirement of appropriating 5% thereof to increase the legal reserve of the relevant Company until this reserve represents 20% of such company's nominal capital stock. As of June 30, 2002, the company's legal reserve stood at 3 million nominal Mexican pesos, representing 20% of the nominal capital stock of the Company. The legal reserve is included in the retained earnings and capital reserve (S-42) of the Consolidated Financial Statement.

MINORITY INTEREST

The Company owns practically the 100% of the capital stock of the subsidiaries and 51% of Servicios Ejecutivos Continental, S.A. The minority interest represents the equity in subsidiaries owned by minority shareholders, shown in the consolidated balance sheet after the majority shareholders' equity. The consolidated statement of income arrives at the consolidated net income and majority and minority portions are shown after the consolidated net income.

6.- REPURCHASE FUND OF SHARES

The Company has established a repurchase fund of its shares, which is showed in the item S-43 of the financial statements, as follows:

SUMMARY:
